DETAILED ACTION

Election/Restrictions

Newly submitted claims 38-44 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Claim 38 does not disclose a first sensor for sensing whether a predetermined supply of insufflations gas is present and a second sensor for identifying the insufflating gas to be associated with a tubing system. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 38-44 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Conclusion

This application is in condition for allowance except for the following formal matters:

The examiner respectfully requests applicant to delete withdrawn claims 38-44.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
